What it's aLL About?

- An evening event focussing on our story of collaborative learning, bringing together UWE students and lecturers, EYFS setting practitioners, setting managers, music practioners, MEH and EYs strategic leaders.
- This event will involve presentations, a practical EYFS music session and time for discussion as we reflect on our recent SoundWaves Network programme in two Early Years settings across Bristol.

The SoundWaves Network is an Early Childhood Music education programme that involves bringing together an array of partners from both the music and EY sector to learn from each other.
