

The [International Rescue Committee](#) is delighted to offer our free training programme to educators in Bristol.

## What is the Healing Classrooms programme?

Crises, conflict and displacement have a direct and profound impact on the physical integrity, well-being and learning ability of refugee children and young people. With the right support, the negative effects of suffering and stress can be reduced and refugee children can heal, grow, learn and thrive.

The [Healing Classrooms](#) approach, based on over 40 years of research, provides you with the resources and support to achieve this. It covers **how to provide safe and supportive learning environments** for refugee students in your school alongside practical advice and resources on **how to incorporate social-emotional learning and trauma-informed pedagogy** into the curriculum.

To register for this free online training, please click the link below:

### Online training sessions

The training consists of **3 online sessions** led by an IRC education specialist who has experience of the English education system as well as having worked with refugees both in this country and abroad. The sessions will provide you with an opportunity to learn about the Healing Classrooms model and to share expertise with other educators.

Each session will last around 1h30min and will take place on **Wednesday 10 May, 17 May and 24 May at 4 pm**. Once you have registered we will send you a Healing Classrooms educator handbook in the post. You will need this during the sessions.
